

Survival Week

PROMPT: Imagine you are stranded on a deserted island. Help is on its way, but it will be one week before it reaches you. You must stay alive for the next seven days.

PLAN

List what you first see on the island.

List what you hear.

List what you feel.

List what you smell.

What are the three most important things you must do to survive?

WRITE: Write a journal entry describing your first day on the island. Use details about your senses to make the reader feel like he or she is there with you.

**Imaginative
Narrative**
