

Lovely Luna Moth

Luna Moth Craft

Enjoyment is in the bag when little ones make this luna moth. Display the moths on a bulletin board decorated like the night sky.

Supplies:

- 2 sheets of copy paper
- paintbrush
- light green tempera paint
- white bumpy chenille stem
- snack-size resealable plastic bag

Steps:

1. Paint the sheets of paper light green. Allow time for the sheets to dry.
2. Crumple the sheets so the painted side faces outward. Then place them in the plastic bag.
3. Wrap the chenille stem around the middle of the bag to form wings.
4. Adjust the ends of the stem to resemble antennae.
